Contents of Volume 24 (1987)

Vol. 24, No. 1

Enhanced drag reduction via interpolymer associations
R.M. Kowalik, I. Duvdevani, D.G. Peiffer, R.D. Lundberg, K. Kitano and D.N Schulz (Annandale, NJ, U.S.A.) 1

Laminar jets of a plane liquid sheet falling vertically in the atmosphere
K. Adachi (Kyoto, Japan) 11

Delayed die swell
D.D. Joseph (Minneapolis, MN, U.S.A.), J.E. Matta (Aberdeen, MD, U.S.A.) and K. Chen (Minneapolis, MN, U.S.A.) 31

Hyperbolicity and change of type in the flow of viscoelastic fluids through pipes
M. Ahrens (Minneapolis, MN, U.S.A.), J.Y. Yoo (Seoul, Korea) and D.D. Joseph (Minneapolis, MN, U.S.A.) 67

Implications of boundary singularities in complex geometries
G.G. Lipscomb, R. Keunings and M.M. Denn (Berkeley, CA, U.S.A.) 85

The squeeze-film flow of a viscoelastic fluid
N. Phan-Thien, F. Sugeng and R.I. Tanner (Sydney, NSW, Australia) 97

Vol. 24, No. 2

Review

Review of the entry flow problem: experimental and numerical
S.A. White, A.D. Gotsis and D.G. Baird (Blacksburg, VA, U.S.A.) 121

The stability of two stratified non-Newtonian liquids in Couette flow
N.D. Waters and A.M. Keeley (Liverpool, Great Britain) 161

The rheology of strongly-flocculated suspensions
R. Buscall, I.J. McGowan, P.D.A. Mills, R.F. Stewart, D. Sutton (Runcorn, Cheshire, U.K.), L.R. White (Parkville, Victoria, Australia) and G.E. Yates (Runcorn, Cheshire, U.K.) 183

Flow of an Oldroyd-type fluid through a sinusoidally corrugated tube
N. Phan-Thien and M.M.K. Khan (Sydney, NSW, Australia) 203

Numerical simulation of viscoelastic flow through a sudden contraction using a type dependent difference method
J.H. Song and J.Y. Yoo (Seoul, Korea) 221

Vol. 24, No. 3

Flow and heat transfer in compression mold filling
C.-C. Lee and C.L. Tucker III (Urbana, IL, U.S.A.) 245

Rheological behavior of silica suspensions flocculated by bridging
Y. Otsubo and K. Watanabe (Chiba-shi, Japan) 265

Effect of ring closure on rheological behavior
J.M. Wiest, S.R. Burdette, T.W. Liu and R.B. Bird (Madison, WI, U.S.A.) 279

Similarity solutions for the orientation distribution function and rheological properties of suspensions of axisymmetric particles with external couples
S. Kim and C.J. Lawrence (Madison, WI, U.S.A.) 297

Computation of rheological properties of suspensions of rigid rods: stress growth after inception of steady shear flow
S.R. Strand, S. Kim and S.J. Karrila (Madison, WI, U.S.A.) 311

Convected derivatives for differential constitutive equations
R.C. Larson (Murray Hill, NJ, U.S.A.) 331

Wall effects in simple shear of dilute polymer solution: exact results for very narrow and very wide channels
P.O. Brunn (Erlangen, F.R.G.) and S. Grisafi (New York, NY, U.S.A.) 343

Short Communication
Effect of roughness on drag reduction for commercially smooth pipes
H.-W. Bewersdorff (Dortmund, F.R.G.) and N.S. Berman (Tempe, AZ, U.S.A.) 365

SUBSCRIPTION INFORMATION

1987 Subscription price: Dfl. 795 plus Dfl. 75 (p.p.h.) = Dfl. 870 (US $425). This covers volumes 23–25. Please send your order to: Elsevier Science Publishers B.V., Journals Department, P.O. Box 211, 1000 AE Amsterdam, The Netherlands, Tel. 5803911, Telex 18582 ESPA NL. Claims for missing issues will be honoured, free of charge, within three months after publication date of the issue. All back volumes are available.

Our p.p.h. (postage, package and handling) charge includes surface delivery of all issues, except to subscribers in U.S.A., Canada, Australia, New Zealand, P.R. China, India, Israel, South Africa, Malaysia, Thailand, Singapore, South Korea, Taiwan, Pakistan, Hong Kong, Brazil, Argentina, Mexico, who receive all issues by air delivery (S.A.L. — Surface Air Lifted) at no extra cost. For Japan, air delivery requires 50% additional charge; for all other countries airmail and S.A.L. charges are available upon request.

Customers in the U.S.A. and Canada wishing information on this and other Elsevier journals, please contact Journal Information Center, Elsevier Science Publishing Co., Inc., 52 Vanderbilt Ave., New York, NY 10017. Telephone: (212) 916–1250.

SUBMISSION OF PAPERS

Papers should be submitted to the Editor: Professor K. Walters, Department of Mathematics, University College of Wales, Aberystwyth, Dyfed, U.K. or may be communicated through a member of the Editorial Board.

Submission of a manuscript implies that it is not under consideration for publication elsewhere and further that, with the exception of review papers, original work not previously published is being presented.

Three copies of the *manuscript* should be submitted in double-spaced typing on pages of uniform size with a wide margin on the left. The top copy should bear the name and full postal address of the person to whom proofs are to be sent. A summary of 100–200 words is required.

References should be numbered consecutively throughout the text and collected together in a reference list at the end of the paper. Journal titles should be abbreviated. The abbreviated title should be followed by volume number, year (in parentheses), and page number.

All *illustrations and tables* should be numbered consecutively and separately throughout the paper. Line drawings should be in a form suitable for reproduction, drawn in Indian ink on drawing paper. They should preferably all require the same degree of reduction, and should be submitted on paper of the same size, or smaller than, the main text, to prevent damage in transit. Photographs should be submitted as clear black-and-white prints on glossy paper. Each illustration must be clearly numbered.

Legends to the illustrations must be submitted in a separate list.

The principal *language* of the journal is English, but papers in French and German will be published.

Authors will receive *galley proofs*, which they are requested to correct and return as soon as possible. No new material may be inserted in the text at the time of proofreading.

A total of 50 *reprints* of each paper will be supplied free of charge to the author(s). Additional copies can be ordered at prices shown on the reprint order form which accompanies the galley proofs.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the prior written permission of the publisher, Elsevier Science Publishers B.V., P.O. Box 330, 1000 AH Amsterdam, The Netherlands.
Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. The transfer will ensure the widest possible dissemination of information.
Submission of an article for publication entails the author(s) irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S. 351) pursuant to article 16 b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.
Special regulations for readers in the U.S.A. – This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pay through the Center the per-copy fee for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The per-copy fee is stated in the code-line at the bottom of the first page of each article. The appropriate fee, together with a copy of the first page of the article, should be forwarded to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, U.S.A.. If no code-line appears, broad consent to copy has not been given and permission to copy must be obtained directly from the author(s). All articles published prior to 1980 may be copied for a per-copy fee of US $2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.
